On
Applications of Scientific and Statistical Software in Research

The national Seminar on Applications of Scientific and Statistical Software in Research was organized by the School of Science on 30-31 March 2017 at U.P. Rajarshi Tandon Open University Allahabad.

Science and Technology has tremendous impact upon the higher studies.

Today Scientific and Statistical softwares are very much used in the study of research. These are the innovative area in science and social area of education. In the present scenario where daily new challenges are being faced by researchers, the use of technology in research and introduction of various softwares are necessary. It is very important to focus on these areas and facilitate research work with proper implementation of statistical tools and also some of the softwares should demonstrate how they use in the research of different subject. Statistical and scientific software are used for the statistical analysis of the collection, organization, analysis, interpretation and presentation of data. The authenticity of any research work can be validated by analyzing its statistical tools. In the present scenario where daily new challenges are being faced by researchers, use of technology in research, introduction of various software for data analysis. It is very important to focus on these areas.

This seminar aims to promote exchange of information and ideas related with the use of scientific and statistical softwares in different subjects. The base of research is the quality of any type of data and its analysis. In which statistics and different softwares are playing more imperative role in all areas of research, whether it is scientific or social. With the help of these researchers validates its findings and formulate conclusions and suggestions and also emphasized the learners and researchers to create a professional quality, typeset publication for their doctoral thesis and writing scientific and technical papers. It also aims to bring together the applied & theoretical statisticians, researchers & students on one platform to

understand the application of Statistics in the above stated fields. It is also aim to understand & develop their skills for statistical consulting, analysis & applied research.

In the above alleged seminar, total numbers of Registered Participants are more than hundred; under the area different areas and belongs to different states of India and two from *Nepal*.

10:30 AM	:	Introduction and Welcome of Guests (By Dr. Shrutti, Organizing Secretary)
		1-Chief Guest
		2- Key Note Speaker
		3- President
10:35 AM	:	Lighting of the Lamp & Floral Tribute to Maa Saraswati
10:40 AM	:	About University (By Dr. Girish Kumar Dwivedi, Convener)
10:45 AM	:	About Seminar (By Mr. Manoj Balwant, Co-Convener)
10:50 AM	:	Ceremonial Greetings of the Guests
10:55 AM	:	Address by Key Note Speaker
11:05 AM	:	Address by Chief Guest
11:15 AM	:	Presidential Address
11:30 AM	:	Vote of Thanks (By Dr. Ashutosh Gupta, Seminar Director)
11:35 AM	:	National Anthem
		Tea Break

Report of Inaugural Session

Under the Umbrella of Indian culture, the Inaugural Session began through the warm Indian welcome of distinguished guests.

After the Indian welcome, program took its speed with 'Welcome Address' by Dr Shruti, Organizing Secretary. On the continuation she also introduce all distinguish guests on the dais. Under this process all dais persons were florid by the bouquet.

Now program took its first step with the lightening of Lamp of Knowledge and Flowerly Tribute to Portraits of Maa Saraswati by all respected dais persons.

Dr. Girish Kumar Dwivedi, Convener, told about the university, its work culture, its expansion and vision.

Mr. M. K. Balwant, Co-Convener, conferred the objectives and aim of said Seminar in 'About the Seminar'. He told about the aim and utility of held seminar. In this He explained that Statistics plays an important role in the field of modern - era research. He also told that with the help of different accurate Statistical Tools & Statistical Softwares, any researcher may get more accurate scientific result from the data.

On the moment of 'Ceremonial Greetings', the 'Angwastram' and 'Smrati-chinhha' was presented by the honorable Vice-Chancellor of UPRTOU to all respected guests who was chaired on the dais.

The Key Note Speaker Prof. Anup Chaturvedi, Department of Statistics, University of Allahabad, Allahabad, discuss about the statistical techniques, utility of softwares and also the applications of both in any research.

Chief Guest of this session, Prof. G. C. Nandi, Director, IIT, Allahabad, told about use of softwares in researches and further studies. He also told any research is useful, when it will be used for human beings.

Prof. M. P. Dubey, Hon'ble Vice-chancellor, U. P. Rajarshi Tandon Open University, Allahabad; delivered his Presidential Address. He told researcher choose their topic with his own choice and interest. In his speech he told about the research problem, research design, and different variables. He also told about the data collection, its calculation and also different Statistical Techniques and Statistical Tools as well as Statistical Software. He also told without the knowledge of Statistics, researcher can't find appropriate result and interpretation of result. He told the knowledge of Statistics is much useful of the modern researches, so that present workshop will be useful for the participants and learners.

The 'Vote of Thanks' was given by Dr. Ashutosh Gupta, Seminar Director. In this he thanked to all persons who were involved in said national seminar directly and indirectly.

The inaugural session was finished with the National Anthem & announcement of high tea.

Of Statistics, Dr. Shakuntla MisraNational Rehabilitation University, Lucknow.</i></p>	69,70,71,72,73,74, 75,76,77,78,79,80,81,89,93,19
Technical Session - IV	<p><i>Prof. Manu Pratap, Deptt. Of Computer Sc. & Applications, Institute of Engineering & Technology, Dr. B. R. A. University, Agra.</i></p> <p><i>Dr. P. C. Gupta, Associate Professor, Deptt. of Computer Science & Information University of Kota, Kota, Rajasthan.</i></p>	6,7,8,9,10,11,14,15,16,17,18,19, 20,21,22, 23,24,25,26,27,28
Technical Session - V	<p><i>Dr. Vinay Mishra, Director, IERT, Allahabad.</i></p> <p><i>Dr. Rajesh Tailor, Associate Professor, Deptt. of Statistics, Vikram university, Ujjain, M. P.</i></p>	30,31,34,35,40,41,43,46,47,49, 51,55,56,61,62,64,68,
Technical Session - VI	<p><i>Prof. Shushma Tripathi, Head, Department of Statistics, MMV, B.H.U. Varanasi.</i></p> <p><i>Dr. Neetu Mishra, Associate Prof., Centre of Food Technology, University of Allahabad, Allahabad.</i></p>	82,83,84,85,86,87,88,90,92,94,95

The technical session- I was started with the lecture of Prof. Anup Chaturvedi, Department of Statistics, Allahabad University, Allahabad; on his topic, "Data Mining with R software". He delivered his lecture on data mining, under this he explained principal component analysis, artificial neural network, support vector machine and classification. After that Prof. S. K. Pandey, Department of Statistics, Lucknow University, Lucknow, delivered his talk on "Modeling under nutrition among under five children of UP using SPSS and STATA". After that both chaired the session and participants presented their papers.

The technical session- II was started with the lecture of Prof. S. S. Mishra, Department of Statistics, Dr. R. M. L. Awadh University, Faizabad; with his topic, "Optimization of Supply chain Model using Fuzzy Approach using R Software". After that Prof. S. N. Shukla, Department of Physics and Electronics, Dr. R. M. L. Awadh University, Faizabad, delivered his talk on "Study of small-Signal Sziklai Pair Amplifiers using Pspice circuit Simulation Software". After that both chaired the session and participants presented their papers.

The technical session- III was started with the lecture of Dr. Surendar Kumar, Department of Statistics, Dr. B. B. Ambedkar Central University, Lucknow; with his topic, "On Estimating the Reliability Function of Exponential Distribution under Type 1st , Type 2nd and Progressive Type Second Censoring Through Various new Approaches". After that Prof. S. K. Pandey, chaired and Dr. surendar kumar, co-chaired the session and participants presented their papers.

After lunch some more speaker/ participants give their views on given topics. After completing the lectures and presentations of first day, the Seminar director, Dr. Ashutosh Gupta, give thanks to all speakers and participants and also media persons. The technical session- IV was started with the lecture of Prof. Vijay Kumar, Department of Statistics, DDU, Gorakhpur; with his topic, "Statistics, Research and Software". After that Dr. Vinay Mishra, Director, IERT, Allahabad, delivered his talk on "Research Opportunities and Challenges in Cloud Computing". After that both chaired the session and participants presented their papers.

The technical session- V was started with the lecture of Prof. Vijay Kumar, Department of Statistics, DDU, Gorakhpur; with his topic, "Statistics, Research and Software". After that Dr. of Statistics, DDU, Gorakhpur; with his topic, "Statistics, Research and Software". After that Dr.

Vinay Mishra, Director, IERT, Allahabad, delivered his talk on "Research Opportunities and Challenges in Cloud Computing". After that both chaired the session and participants presented their papers.

The technical session- VI was started with the lecture of Dr. Rajesh Tailor, Associate Professor, Deptt. of Statistics, Vikram university, Ujjain, M. P. and delivered his talk "Estimation of Population Mean Using Auxiliary Variates using MS-Excel and SPSS Software" and Dr Neetu Mishra, Associate Prof., Centre of Food Technology, University of Allahabad, Allahabad, delivered her talk on "Graph Pad Prism: Features and Applications". After that both chaired the session and participants presented their papers.

After completing the lectures and presentations of second day, the Seminar director, Dr. Ashutosh Gupta, give thanks to all speakers and participants and also media persons. After lunch valedictory session was started.
